ForceTriad™ Energy Platform with TissueFect™ Sensing Technology

One integrated solution to meet all your RF energy needs

Imagine the possibilities.

The ForceTriad™ energy platform is the only system available that meets all needs for RF energy with a wide range of surgical options.

- Monopolar Cut and Coag
- Innovative monopolar Valleylab™ mode for hemostasis with dissection
- Bipolar and automatic start/stop autobipolar
- Next-generation of LigaSure™ tissue fusion

The all-in-one system eliminates the need for multiple electrosurgery, dissection and hemostasis systems.

- No need for multiple equipment carts
- No potentially unsafe equipment stacking
- O.R. downtime is minimized with fewer systems to service, maintain and track
- Compatible with most boom mount systems

The ForceTriad™ energy platform uses an intuitive graphical user interface.

- Provides a consistent display of the available modalities
- Lessens the need for staff training
- Decreases the learning curve of working with multiple systems from multiple vendors

**Valleylab™ Exchange
software update system
keeps the ForceTriad™
energy platform software
up-to-date.**

- Software is updated using your secure Internet connection
- Ensures platform operates with latest technology
- No need to send the system to a service center

Imagine the possibilities.

CONFIDENCE

EVIDENCE-BASED

VERSATILITY

CONSISTENCY

TECHNOLOGY

Features

Benefits

Common user-interface

- Fast learning curve
- Easy to train new staff

Minimal footprint

- Reduces need for multiple carts or for potentially unsafe equipment stacking

One piece of equipment

- Fewer systems to service, maintain and track
- Fewer units to acquire
- Fewer vendors

Variety of energies available

- Choose any of the three energy modalities to meet the needs of the procedure
- Dual monopolar, bipolar and next-generation of LigaSure™ tissue fusion

Software upgradeability

- Keeps system current
- Allows for extended capital equipment cycle
- Allows for system to grow with changing energy needs

Valleylab™ Bipolar Forceps Designed for surgical procedures

These foot-switching bipolar forceps are precision crafted of the highest grade stainless steel and titanium. They are designed to provide superior control, safety and surgical efficacy at minimum output power settings.

Providing precision to bipolar electrosurgery

Benefits

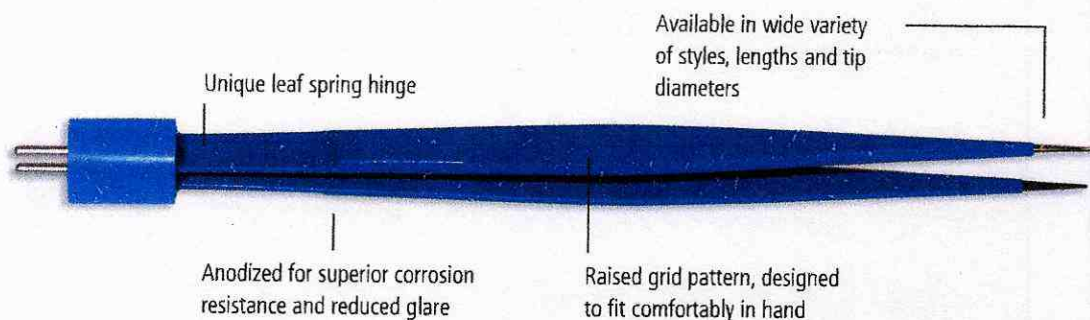

- Provide the degree of precision and safety vital to bipolar electrosurgery
- Lightweight, less fatiguing for long procedures
- Facilitates tactile sensitivity
- Reduced glare
- Delivers consistent pressure over a wide range of tissue thickness

Key Features

- Foot switching
- Insulated
- Titanium option , 40 percent lighter than stainless steel

ORDER INFORMATION

CATALOG NUMBER	DESCRIPTION	ORDER QUANTITY
E4051CT – E4062CT	Reusable, insulated stainless steel, foot switching, bipolar coagulation forceps	1 each
E4073CT	Reusable, insulated titanium, foot switching, bipolar coagulation forceps	1 each
E0509	Sterile, single use 3.6 m (12 ft) bipolar coagulation forceps cord; not for use with Force Triad™ energy platform	50/case
E0512	Sterile, single use 3.6 (12 ft) bipolar coagulation forceps cord with molded plug	50/case
E0020V	Reusable 4.6 m (14.76 ft) silicone, bipolar cord for two-pin U.S.-style bipolar coagulation forceps for use with any Covidien electrosurgical generator	1 each
E0021S	Reusable 4.6 m (14.76 ft) silicone, bipolar cord for select Karl Storz bipolar devices for use with any Covidien electrosurgical generator	1 each
E0022W	Reusable 4.6 m (14.76 ft) silicone, bipolar cord for select Richard Wolf devices for use with any Covidien electrosurgical generator	1 each

TECHNICAL SPECIFICATIONS

E4051CT	Scoville-Greenwood bayonet forceps	19.7 cm (7-3/4 in.) 1.5 mm
E4052CT	Cushing forceps	15.2 cm (6 in.) 0.7 mm ✓
E4053CT	Cushing forceps	17.8 cm (7 in.) 1.5 mm
E4054CT	Cushing bayonet forceps	19.1 cm (7-1/2 in.) 2.0 mm
E4055CT	Jewelers forceps, straight tip	10.2 cm (4 in.) 0.4 mm ✓
E4057CT	Gerald bayonet forceps	19.1 cm (7-1/2 in.) 0.7 mm
E4058CT	Cushing bayonet forceps	19.1 cm (7-1/2 in.) 0.7 mm
E4059CT	Hardy bayonet forceps with stops	20.9 cm (8-1/4 in.) 0.5 mm
E4060CT	Semkin forceps with stops	14.0 cm (5-3/4 in.) 0.5 mm ✓
E4062CT	Curved iris forceps	8.9 cm (3-1/2 in.) 0.5 mm ✓
E4073CT	Titanium bayonet forceps, straight medium tip	22.2 cm (8-3/4 in.) 1.0 mm
